Yogyakarta, Indonesia

I am a final year students at Informatics major in Universitas Islam Indonesia, currently on a passionate quest to become a UI/UX design expert. I have experienced in UI/UX for 3 years and created many projects to addressed society problems. My ambition is not just to master the technical aspects of UI/UX, but to innovate and elevate the way people interact with technology, making it more accessible and enjoyable for a diverse range of users. I can work under the tension and full dedication
